Dear Ms. Freeman:

This reference is in regard to Recreation Services Corporation, James Riddle, president.

Houston ISD passed a major bond referendum in November 2002. A portion of these funds, ten million dollars, was to upgrade school playgrounds in order to improve student safety. Initially 125 elementary schools were assessed.

Recreation Services Corporation is one of two companies selected through the RFP, bid process. RSC has been assigned approximately two thirds of these 125 schools for the playground equipment aspect with an additional opportunity to bid on the shade structure phase at a later date.

Jim Riddle, Chris Curtis, and Delayna Curtis have been an absolute delight to work with! They are very professional, yet flexible, in every situation that occurs. The entire process, from on-site evaluations, purchase order requisitions, installations, to invoicing, has been excellent! Jim Riddle, as president of RSC, has demonstrated an outstanding ability to work with various levels of personnel: schools principals, architects, program administrators, etc. Jim's expertise in his field is evident in each and every phase of this program.

I highly recommend Recreation Services Corporation! Please feel free to contact me if you need further information.

Sincerely,
Diana Henigan,
