

To Whom It May Concern:

I am the General Maintenance Supervisor for the Mansfield ISD, in Mansfield, TX and would like to take this opportunity to express my satisfaction with Recreation Services Corporation and Dalayna Curtis, in particular. Recreation Services won our district's bid for supplying safety surfacing for all our playgrounds and I have been very happy with them. Not only have they been extremely helpful in scheduling deliveries and making sure there were no problems with our surfacing materials, they have served as a trusted "sounding board" for me as well.

Dalayna is a very detail oriented person and any time I have had a question concerning playground safety, she has either known the answer herself or been able to help me find a definitive answer very quickly. I had an issue once with needing to have a delivery of surfacing materials scheduled on a day when most trucks were not running due to extremely heavy rains we had been experiencing. Dalayna went to bat for me with the trucking company and had the surfacing there for me by 7 AM the following morning. This kind of service means a lot to me and my district and I appreciate doing business with such a responsive company.

Sincerely,  
Dempsy Winans, General Maintenance Supervisor  
Mansfield ISD
